Leading Manufacturer of Compression Boots
and Electric Massagers Since 2003

DJL

HEALTH FOR YOU EVERY DAY !

- **23 Years**
  Focus on sport rehabilitation technology
- **600+**
  Staff
- **30+** Engineers
  R&D Department
- **2 Million Units**
  Annual Production
- **OEM & ODM**
- **17000 Square Meters**
  Production Plants
- **20 Production Lines**
- **Sewing Workshop**
- **Tooling & Injection Workshop**
- **PCBA Workshop**

Company Profile

Shenzhen Dongjilian Medical Tech Co. Ltd., founded in 2003, is a technology-driven enterprise dedicated to the design, R&D, manufacturing, and sales of Compression Boots and Electric Massagers.

We are one of the earliest domestic companies engaged in the research and development of Compression Boots and Electric Massagers and have been granted 56 patents by the government. Recognized as a Shenzhen High-tech and State-level High-tech Enterprise, we uphold a professional and innovative development strategy.

Since inception, we have adhered to the business philosophy of "Quality for Survival, Benefit for Development." Our focus remains on the deep development and refinement of healthcare products-specifically Compression Boots and Electric Massagers.

We have established a comprehensive and strict quality management system and are certified under international standards including ISO9001:2008, ISO13485:2003, and Sedex. Our products also hold certifications such as FDA, UL, CE, RoHS, KC, PSE, FCC, CB, and GS, with some obtaining 510(k) certificates.

Our manufacturing facilities cover over 17,000 square meters, equipped with advanced production lines, testing equipment, and professional laboratories. Our team comprises over 600 employees, including more than 30 R&D specialists, 30+ quality control engineers, and over 40 dedicated to management, sales, and service.

With an annual capacity of two million units, we are licensed for import and export of general commodities. Our products are exported to over 40 countries worldwide, and we provide professional OEM/ODM services to both domestic and international clients. Recent investments in R&D and capacity expansion have driven significant growth, and we continue to explore new markets globally.

Guided by the principles of "Market-Oriented, Customer-Centric, and Innovation-Driven", we operate under the core philosophy that "Quality ensures survival, and value drives development". We are committed to earning the trust of our partners and customers worldwide.

We have established strong collaborations with well-known international brands, and our products are highly valued by clients. We warmly invite customers-both domestic and international-to visit us for productive discussions.

Detachable

S9091 Detachable Wireless Compression Boots with Heat

- 6 compression modes with 11 adjustable pressure levels from 50 – 150mmHg
- 5 air chambers with individual zone control for targeted compression
- 3-level heat therapy at 41°C, 44°C and 47°C for added comfort
- Detachable wireless controllers for greater freedom and portability
- Bluetooth synchronization keeps both boots working simultaneously
- 3000mAh rechargeable battery provides approximately 2 – 3 hours of cordless use
- Adjustable 20 – 45 minute timer for flexible recovery sessions
- Low-noise operation with built-in safety protection for comfortable daily use

Packing List and Weight List

Model	Carton Size (mm)	Qty/Ctn (pcs)	N.W./G.W. (kg)	Container Loadings(pcs)	
				20GP	40HQ
S9091	435x415x255	2	5.3/9.6	1120	2800

Charging Voltage: 5V/3A
Power: 15W

- **3000mAh** Battery
- **3 Hours** Charging time
- **6 Massage** Modes
- **3 Hours** Using time
- **50-150mmHg** Massage Intensity
- **Bluetooth Synchronization**
- **Detachable Controller**
- **Heat Function**

S9082F *Wireless Compression Boots with Infrared LED Light*

- Easy-to-use smart controller with a clear LED display
- 5 overlapping air chambers with 3 compression modes and 11 pressure levels from 50 – 150mmHg
- Zipper design makes the boots easy to put on, take off and wear comfortably
- Built-in 2600mAh battery; working time: 2h; charging time: 3h
- Bluetooth synchronization allows both boots to work together at the same time
- Emergency air-release button for quick pressure release and safer use
- Built-in infrared light therapy adds gentle warmth for better relaxation and recovery

Packing List and Weight List

S9082 *Wireless Compression Boots*

- All-in-one user-friendly smart controller,LED screen display
- 5 overlapped chambers,3 massage modes,11 intensity level of therapeutic and relaxation (50-150mmHg)
- Zipper wearable technology with fashionable and trendy style
- Built-in 2600mAh battery, using time 2.5h, charging time 3h
- Bluetooth synchronization, two legs synch working together
- Safety protection design, come with air release button for emergency
- Reduces lymphatic swelling,and prevents varicose veins and leg cramps
- Accelerates vein and lymph back flow, promotes circulation, and enhances metabolism

S9035 *Air Compression Recovery System*

- Built-in curved modules fit calves contour perfectly, and provides extra comfort while in use
- 4 chambers, 3 massage modes, 8 intensity level of therapeutic and relaxation from 50 to 120mmHg
- All-in-one user-friendly smart controller
- Relaxes your legs, and be energetic
- Enhances sports performance, and increases muscular flexibility
- Hand-free rehabilitation tools for recovery from muscular strains
- Reduces lymphatic swelling, and prevents varicose veins and leg cramps
- Accelerates vein and lymph backflow, promotes circulation, and enhances metabolism
- Super quiet operation with zero disturbance
- Zipper wearable technology with fashionable and trendy style
